

KENT M. FORTICH

Aspiring Web Developer

About Me

As an aspiring web developer, I am driven by my passion for crafting innovative and user-friendly websites. With a solid understanding of ReactJS and its ecosystem, I am eager to create responsive and visually appealing web experiences. I am constantly seeking opportunities to expand my skill set and stay up-to-date with the latest React development trends. A collaborative and detail-oriented individual, I am excited to contribute my creativity and problem-solving abilities to build immersive digital solutions using ReactJS.

University Batangas

EXPERIENCE

Hydroponic Farmer

Denso (Freshbyt PH)

Talaibon, Ibaan Batangas

January 2024 - Present

- Manage hydroponic farming operations, including planting, nutrient management, and harvesting.
- Monitor plant health and optimize growth conditions for high-yield production.
- Handle post-harvest processing and personally deliver fresh produce to stores and restaurants.
- Maintain relationships with clients to ensure timely and high-quality produce deliveries.

Image annotator / labeler

Online Job (part-time)

2020 - 2022

- Annotated building footprints in high-resolution satellite imagery using specialized annotation software.
- Maintained high accuracy rates by carefully identifying and outlining building boundaries and labeling building characteristics such as heights and roof types.

Online selling business assistant (part-time)

<https://www.facebook.com/oldrozu>

2021

- Before each photoshoot, I meticulously launder and prepare our products to guarantee they are presented in their pristine and best condition.
- Armed with a camera and an eye for detail, I embark on capturing the beauty of our laundry products. From detergents to accessories, each item is photographed with precision to showcase its unique features.

Helpdesk intern

Project - T Solution

Bonifacio Stopover Corporate Center

January 2018 - May 2018

- Provided technical support for hardware and software issues to internal staff and external clients.
- Diagnosed and resolved technical issues related to desktops, laptops, printers, and other hardware devices.
- Tracked and documented all support issues and resolutions in a ticketing system.

MY SKILLS

I am knowledgeable in web development, specializing in **HTML**, **CSS**, **JavaScript**, and **React.js**. Additionally, I have a strong understanding of **REST API** and experience in building applications using the **MERN stack**. I possess strong **time management** and **multitasking** abilities, allowing me to effectively handle multiple responsibilities concurrently. I am adept at **problem-solving** and approach challenges with a proactive mindset.
